
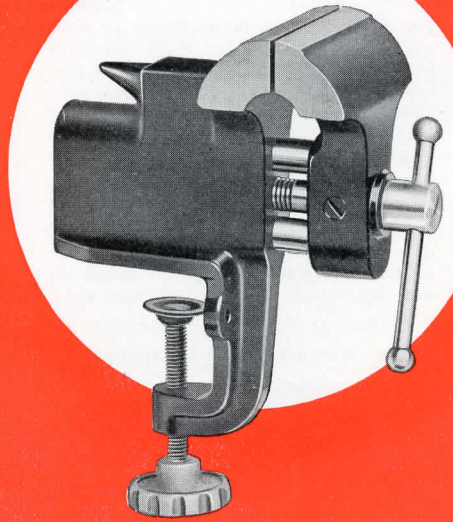
GEM HOUSEHOLD SHARPENER

THIS attractive, dependable sharpener, a favorite with housewives everywhere, requires absolutely no mechanical experience or operating skill.

Simply lay your knife blade in the sharpening groove as shown above, and draw the knife towards you as the wheel is revolved. Proper grinding depth is automatically regulated by the sharpening groove. It's all done in a jiffy . . . perfectly ground with a smooth, keen, lasting edge.

Attractively finished in deep red, blue and copper, and guaranteed to sharpen correctly even after subjection to wear. Price, complete with scissor guide, $1.50.



HANDY HOME VISE

The Handy Home Vise is just the extra helper so many homes need, for it actually takes the place of another person in helping to loosen nuts, holding parts for drilling, filing, etc.

Well built throughout, with oversize jaws accurately milled and fitted. Sturdy hand lever made of cold rolled steel. All working parts brightly polished. Balance of tool attractively finished in Red Enamel baked on under high temperature.

"Money Saved Is Money Earned"

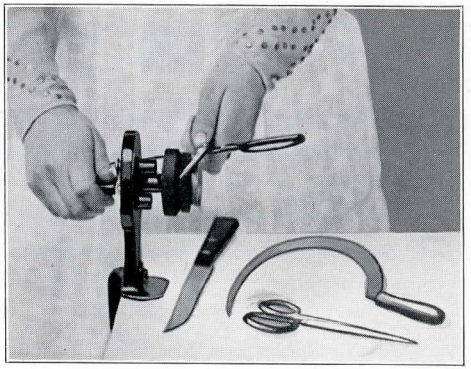
Gem Sharpeners save twice their cost each year to countless women who formerly "paid the grinder".

GEM HOUSEHOLD SHARPENER

RAZOR like knives, keen edged scissors . . . SHARP . . . SHARP . . . always SHARP. Truly this would seem Utopia to every good housewife in the land. And it's all so easily brought about by this most ingenious little tool . . . the Gem Household Sharpener. It is so simply constructed that any woman can operate it as easily and as successfully as one operates a pencil sharpener.

No longer need you wait month after month for busy, thoughtless men to sharpen your knives or scissors. No longer need any woman bear with dull utensils that waste her time and try her very soul.

The Gem Household Sharpener will banish all such woes by putting a smooth, keen edge on every blade you have. You need have no fear of entrusting even your most prized cutlery to this machine, for like all "MODERN" Grinders, the Gem is equipped with the highest grade artificially manufactured sharpening wheel, which cuts cool and smooth. For your convenience it may be attached either to wall or table.



If It has a Blade, the Gem Will Keep It Sharp

Due to the ingenious wheel construction of the Gem Sharpener the most unskilled person can easily keep the following cutting utensils in perfect razor like condition.

Knives	*Chopping Knives*
Sickles	*Screw Drivers*
Scissors	*Chisels*
Grass Shears	*Ice Picks, Awls, etc.*

It makes no difference whether the blade is curved, wavy or straight. The Gem does a wavy edged bread knife just as well as a straight edged one.

Manufactured by Modern Grinder Mfg. Co., Milwaukee, Wis., U. S. A.

MODERN PLANES

The Only Plane Equipped with Genuine Swedish Steel Cutters

THESE high grade, adjustable, iron, bench planes are equipped with genuine Swedish steel cutters, universally recognized as the best. Machined to .003 of an inch and designed for the most exacting shop work MODERN Planes are naturally prized in all homes where good tools are appreciated.

A "MODERN" Sharpener

Brings Back to Life Those Old Discarded Tools —Keeps New Tools Sharp and True

Although designed and built for master craftsmen the MODERN Sharpener has found great favor in homes that prize the best in tools.

MODERN Sharpeners are equipped with the highest grade vitrified abrasive wheels obtainable. Being scientifically bonded, and then burned under intense heat they are extremely hard and tough; cut fast under high pressure; and wear away only very slowly. Also, their porous construction keeps them cool and free cutting. The most delicate tools are quickly and safely brought to a keen, smooth edge.

Attractively finished in red enamel, and guaranteed as to quality and workmanship.

Note the exclusive features embodied in the mechanical construction of Modern Grinders in cross-section illustration.
